LATE SPURT IN STOCKS

ALL THAT RELIEVED THE MARKET FROM ITS STAGNATION.

A Few Specialties Moved Upward from Special Causes-Midsummer Dullness in Local Trade.

At New York, yesterday, money on call was steady at 11/611/2 per cent.

Prime mercantile paper, 4@4% per cent. Sterling exchange was firm, with actual business in bankers' bills at \$4.87% for demand and \$4.83% for sixty days; posted rates, \$4.84\2014.85 and \$4.88; commercial bills, \$4.831/4/4.831/2.

Silver certificates were 614@624c; bar silver, 614c; Mexican dollars, 484c. At Lon-

den silver hars sold at 284d an ounce. The dullness of yesterday's stock market was almost unrelieved by any feature of interest until the last hour, when a sharp upward movement developed in a number of specialties. This was sufficient to induce a siuggish general recovery in the market, Wednesday night at some points. The closing was therefore firm, but dull, and the nct changes were insignificant, except in a handful of stocks. Sugar led the late advance and moved up an extreme 3% on the expectation of a further rise in the price of the refined product, which is now higher than for several years past. The margin between the price of the raw and refined sugar is now sufficient, according to the experts, to yield a large profit on refining. Pacific Mail rose sharply over Tuesday's high level on renewed speculation over the benefits to accrue from the

the encouraging view of the Iron Age of the trade outlook. Steel Hoop and Tinespecially affected on reports of buying demand for their world. Yesterday's advance from 3 to New York were the impressive facts which called attention to this feature of the situation. The Bank of England had used its own and the government resources for some time past to help the London money market. The continued demand for gold from the Bank of France apparently did not affect this policy. But there are now indications that the French institution has about satisfied its recuperative needs. Sterling exchange at Paris rose another 1/2 centime yesterday and the Bank of France has renewed its loan expansion. As though it had been waiting for this development, the Bank of England put up its discount rate 1 per cent., in spite of repayments to the bank by the open market of loans to the extent of \$7,535,000 during the week. The reduction in the bank's selling price of gold seems to have been made for its effect on the open market for gold, the

French demand showing relaxation. The

terday. This seems to clearly foreshadow

a policy of retrenchment and recuperation

on the part of the English institution. If it

is to seek gold by special inducements the

supply almost certainly will be drawn from

New York. Yesterday's sterling rate, in

fact, advanced 14, and there is some ex-

pectation that gold will be shipped to Lon-don on Saturday's steamer. There is un-

doubtedly considerable apprehension that

this new demand on New York bank re-

serves may be joined to the recall of funds

by interior institutions later on and de-

fact that very little money is offering for

loans at four months or over, for all offer-

ings are readily absorbed at a relatively

high rate. There is to be considered the

prospective foreign demand for gold, the

demand for crop-moving purposes and the

government revenue, the latter being con-

requirements for meeting the surplus in

the market as a purchaser of gold yes

Bank of England accordingly appeared in

WHEAT LED IN ACTIVITY, CLOSING ONE CENT HIGHER.

Corn Finished Three-Eighths Up and Oats Were Unchanged - Provisions Firm at a Slight Loss.

CHICAGO, July 19.-Numerous denials of improvement in the Northwest were influential in rescuing wheat from its early slump to-day, September closing %@lc over yesterday. Corn was firm on an excellent cash demand, closing %c higher. Oats closed unchanged and provisions 21/2/95c Wheat opened weak under a combination

of lower foreign markets and reiteration by the Price Current of its optimistic estimate of the season's wheat production. Paris and Liverpool were both very weak, while the Price Current averred that the surplus this year would exceed the exports of any other year. While considering these propositions there were many traders inclined to play for a reaction on general principles. September opened 11/8@11/4c to 5/8 @%c lower, at 75c to 75%c. Thereafter the market showed strength, which gradually increased as the session progressed. In this the main factor was to be found in numerous reports denying the recent assertions that the Northwest crop had been vastly improved by rains. These generally put the yield of the Dakotas and Minnesota at 100,000,000 bu. New York bought, there was a fair commission house demand and purchasing by scalpers. Shorts governed when they saw the way things were going, and as a result September steadily rose and closed at the top, %@1c over yesterday, at 771/6c. Primary receipts were 661,000 bu, compared with 918,000 the corresponding day last year. Minneapolis and Duluth reported 234 cars, against 158 last week and 306 a year ago. Receipts here were 113 cars, twenty-seven of contract Steel cut nails, \$2.65; wire nails, from store, \$2.65 rates; from mill, \$2.65 rates. Horseshoes, grade. New York reported eighteen loads per keg. \$4; mule shoes, per keg. \$4.50; horse taken for export. Clearances at the seaboard in wheat and flour were equal to

403,000 bu. Corn was active, and, after early depression and flightiness, strong under the firmness of the cash situation. The market opened weak under the leadership of the wheat dip and discouraging cables, coupled with excellent weather in the West. Country offerings were very small and some Western interests covered by cash sales. Cash people showed confidence in their position by demanding lc or even fractionally more for corn in store, and at that the business done amounted to half a million bushels. September sold between 371/2c and 39c, closing %c over yesterday, at 38%@39c. Receipts were 415 cars. New York reported eighty-one loads taken for export.

The oats market, as usual, attached itself to corn and in a quiet way followed the bigger market throughout the session. The Northwest was the best buyer and the shipping demand was good. September sold between 23c and 23%c and closed unchanged from yesterday at 23%c. Receipts The trade in provisions was narrow and

dull, but the tone was steady on a fair though scattered demand for cash. September pork sold between \$11.621/4 and \$11.671/2 and closed 5c lower, at \$11.65; September lard between \$6.65 and \$6.70, closing 21/2@5c down, at \$6.671/2, and September ribs between \$6.70 and \$6.75, with the close 5c down, at \$6.721/2. Hysteries.

To the Editor of the Indianapolis Journal. When I first read the Kansas City platform it almost made my hair stand on end with fright. Could it be possible, I thought, that the "burning issue of imperialism," involving "the very existence of the Republic and the destruction of free institutions." should be right at our doors, our liberties threatened and our freedom all but lost-and we not know it? Horrid thought! Worse than nursery ghosts with which I was almost scared to death when fear had passed and my nerves had become somewhat composed, I remembered that during our civil war this same Democratic party had denounced Lincoln as a tyrant who had taken away the liberties of the American people, torn the Constitution into tatters and destroyed our free institutions. And then I remembered how this same party had held Grant up to the scorn of all the world as the man on horseback, who had completely finished our undoing by riding roughshod over the remaining fragments of our dying liberties. And then I bethought me that since the days of Lincoin and Grant this same party had always discovered some awful mare's nest during the succeeding presidential campaigns with

which to affright us. First it was the tyranny of Lincoln, then it was imperialism and the man on horseback, then it was the making of slaves of all workingmen by a protective tariff, then it was the crucifying of the common people on a cross of gold and an awful picture of the distress, destruction and sudden death that would overtake us all unless we could have the immediate free coinage of silver at the ratio of 16 to 1, and now it is imperialism again with all the other evil thrown in and the entire loss of our liberties-unless we vote Bryan in and McKinley out.

After a few moments' reflection along this line my nerves became steady again. notwithstanding the severe shock they received from a perusal of the Kansas City platform. The Democratic platform makers seem to think that a majority of the voters in this country are hysterical, and

that the way to succeed in an elect scare them into fits.
